

NIM-GROWTH

An Aggressive Strategy

September 30, 2023

NIM-GROWTH PORTFOLIO DESCRIPTION

NIM's **Growth Strategy** is designed to be an aggressive, long-only equity strategy which invests primarily in large and some mid-capitalization companies. Some of these holdings will be in equities which have come to the public market within the last five years, and in some cases, within the last few months. NIM attempts to identify companies with strong prospective growth characteristics, selling at attractive valuations as compared to other private and public companies. We anticipate using Fixed Income as we deem appropriate to balance out the portfolio.

Disclaimer:

Securities offered through Schwab Institutional and Interactive Brokers, Members FINRA/SIPC. Nollenberger McCullough Investment Advisors LLC, Schwab Institutional, and Interactive Brokers are separate and unaffiliated entities.

The performance results presented in this summary are unaudited and have been prepared for informational purposes only. The performance results reflect the hypothetical (“Model Portfolio”) of \$1 million invested on February 26, 2015. The performance results of the Model Portfolio do not represent actual trading and may not reflect the impact that material economic and market factors might have had on the Portfolio Manager’s decision-making had the Portfolio Manager actually managed client assets given such factors. The performance results of the Model Portfolio are net of fees. Management fees charged for this model portfolio has been 1.25%. Also reflected in the performance returns of the Model Portfolio are reinvestment of dividends and other earnings. Of course, past performance is not an indication of future performance.

The performance results of the Model Portfolio are time-weighted rates of return and are valued monthly using trade-date accounting. Dividends and interest payments are calculated on an accrual basis.

The conditions, objectives, or investment strategies of the Model Portfolio have not changed materially during the time period portrayed. The Model Portfolio does not include securities that the Portfolio Manager no longer recommends to its clients. The investment strategies of the Model Portfolio do relate to those of the portfolios of clients for which Nollenberger McCullough Investment Advisors LLC currently directs. The Nollenberger McCullough Investment Advisors LLC clients did not have investment results materially different from the results portrayed in the Model Portfolio.

This communication does not purport to be a complete statement of all material facts related to any company, industry, or security mentioned. The information provided, while not guaranteed as to accuracy or completeness, has been obtained from sources believed to be reliable. The opinions expressed reflect our judgment at this time and are subject to change without notice and may or may not be updated. Past performance should not be taken as an indication or guarantee of future performance, and no representation or warranty, express or implied, is made regarding future performance. This communication shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any state in which said offer, solicitation, or sale would be unlawful prior to registration of qualification under the securities laws of any such state.
